

Expertise At-A-Glance

With three decades of experience maintaining and analyzing quality cancer data, CHAMPS ODS staff are recognized as experts in the field and maintain a solid commitment to helping healthcare providers operate strong cancer programs that effectively contribute to the war on cancer. CHAMPS ODS exhibits both expertise in the cancer registry process and at using and analyzing the data to produce information useful to practitioners, healthcare professionals and hospital administrators.

About CHAMPS ODS

- ◆ Thirty years of providing expertise in the collection and timely reporting of complete and accurate cancer data
- ◆ Leading provider of cancer registry and cancer program consulting services in Ohio, servicing clients nationwide
- ◆ Serves a wide array of clients including a national pathology laboratory for abstracting and reporting services in multiple states
- ◆ Responsible for the data collection and submission to the Ohio Cancer Incidence Surveillance System (OCISS) for 14 percent annually of newly diagnosed cancer cases in Ohio
- ◆ Average client relationship of 10 years
- ◆ 100% of CHAMPS full-service clients received the commendation rating for cancer data management and cancer registry operations per the Commission on Cancer (CoC) Standard 3
- ◆ Two of 29 CoC-trained Independent Consultants nationwide on staff and available for consult

Why CHAMPS?

- ◆ Responsible for the staffing and management needed to complete projects, operations and requirements inherent in a hospital-based cancer registry
- ◆ Personnel administration and management provided by Certified Tumor Registrars and CoC-trained Independent Consultants
- ◆ Service to clients is uninterrupted by vacation, illness or leaves of absence
- ◆ Provide ongoing staff development and training to remain current with ever-changing legislation
- ◆ Eliminate staff turnover, recruiting and training costs
- ◆ Eliminate the allocation of internal staff time to managing, training, mentoring, recruiting, disciplining or supporting registry staff
- ◆ Reduce expenses associated with employee benefits, such as workers' compensation, unemployment and health insurance costs

over
